

# Composition®

# Manufacturer's Guarantee

Composition® is manufactured by Autex Industries Ltd and Autex Australia Pty Ltd under ISO 9001 and ISO 14001 certified Quality and Environmental Management Systems. The product is guaranteed to be free from manufacturing defects and carries a Manufacturer's Guarantee for a period of no less than ten years to meet all of the performance properties stated within this guarantee.

Product name Composition®  Description 100% polyester	r needle nunch	ed therms	ılly ho	nded	wallo	overin	na			
Metric										
Roll width	1.22 m x 25 m									
Thickness		10 - 12 mm (+/- 5 mm) (+/- 10 mm)								
Weight	Typically 1680 gsm									
Boiling point:	Boiling point:		N/A							
Melting point:		250°C								
Vapour pressure:		N/A								
Specific gravity:		Polyester 1.38								
Flash point:		N/A								
Explosive limits:		N/A								
Solubility in water:		Not soluble								
Alkalinity:		pH 7.8								
Relative vapour density:	N/A									
Composition is specifically designed to reduce and control reverberated noise	Frequency	(Hz)	125	250	500	1000	2000	4000	NR	
and echo in building interiors.  Noise Reduction  Coefficient 0.40	● 10 - 12mm Composition 0.05 0.10 0.25 0.55 0.80 0.95 0.4			0.40

# Product specifications

#### Composition

100% polyester fibre from polyethylene terephthalate (PET). Composition® contains a minimum of 60% recycled polyester fibre.

## Suitable applications

Pinboard and acoustic wallcovering. Accepts pins and staples.

# Fire ratings

Composition has been evaluated using the following test methods:

## ISO 9705: 1993

Classification: Group 1-S Smoke production rate: <5.0m2/sAs required by NZBC C/VM2

#### AS ISO 9705 - 2003

Classification: Group 1 (SMOGRArc): <100m2/s2 Assessed using methodology AS ISO 9705:2003 in accordance with AS 5637.1:2015, as required by BCA Specification C1.10-4 FI 4894 and FAR 4055

#### BS EN 13501-1:2018

Classification: B-s1,d0

Tested using BS EN ISO 11925-2:2020 and BS EN 13823:2020 and classified in accordance with BS EN 13501-1:2018, as required by BS EN 15102:2007 EUI-21-000135-C

# ASTM E84 - 14

Class A, FS:5 - SD:25 Report RJ3297

# Thermal performance

R0.22 (@15°C)

#### VOC emissions

Autex Acoustics polyester has been tested for chemical emissions in accordance with ASTM D5116 and is considered a low VOC product. VOC concentration: 0.009 mg/m3 (7 days)

#### Water vapour sorption

ASTM C1104 / C1104M-13a Test conditions: 49°C, 95%RH Water vapour absorbed and adsorped after 4 days: 0.4% by weight

#### Impact resistance ISO 7892:1988

## Hard body impact

There is no surface damage or penetration to Composition when subjected to hard body impacts. When adhered to 10 mm plasterboard, the system can resist a 9 joule impact. This is equivalent to the impact of a 0.5 kg object dropped from a 2 m height. A small indentation might be observed when subjected to an impact equivalent to the impact of a 0.5 kg object dropped from a 0.5 m height.

#### Soft body impact

There is no surface damage or penetration to Composition when subjected to soft body impacts. When adhered to 10 mm plasterboard, the system can resist a 70 joule impact. This is equivalent to the impact of a 50 kg object dropped from a 150 mm height.

#### Microbial resistance

ASTM G21-15 Growth rating: 0 (No growth) Composition does not promote the growth of moulds and mildew

## Colour fastness to light

Composition is suitable for indoor use only. Light fastness is dependent on use and exposure. Composition has been evaluated to the following standard: ISO 105-B02:2014 Rating: 6 (Highest = 7)

## Colour fastness to rubbing ISO 105-X12:2016

Dry rating: 4-5 (Highest = 5) Wet rating: 4-5 (Highest = 5)

#### Moisture absorption

Polyester fibre when exposed to an atmosphere of 50°C at 90% relative humidity for four days showed moisture absorption of less than 0.03% by weight. Polyester is not affected by moisture and will not rot or deteriorate in intended use situations.

#### Fabric care

Blot spills from fabric quickly. Wipe with a damp cloth. Avoid rubbing and excessive amounts of water as this will affect the finish. Use carpet or upholstery shampoo as directed. Blot with a clean dry cloth after each application of solution.

Custom printed Composition requires the services of a specialist cleaning company. Refer to the Composition Care and Maintenance Guide for more information.

#### Finish

Non-woven. No pattern repeat but Composition has a directional grain. Product may vary from samples and batch to batch due to fibre blending and lay-up, which is an inherent feature of this product.
