Autex Acoustics® x Emma Hayes

● Emma Hayes
Veil - Rose

The perfect pairing

Blending the best of both brands, Autex Acoustics x Emma Hayes brings the subtle features of our landscape with acoustic functionality into the built environment. Printed onto Cube™ this range is made up of eight designs with our natural environment as the core inspiration.

The rigidity of the materials used means that these prints are fit for a range of interior spaces and contain a minimum of 60% recycled material. These are printed in our digital printer, allowing for detailed images that are dry to the touch as soon as they're printed.

Eight unique designs

Features and benefits:

- Combining beautiful design with high performance acoustic solutions
- Biophilic design
- Carbon neutral
- Low VOC
- Fire tested
- Safe, water-based, UV cured ink

Applications:

- Designed for use in a range of interior spaces
- Suitable for wall and ceiling applications
- Available in 6 mm, 12 mm and 24 mm thicknesses
- Recommended for application in non-contact areas only
- For full details on suitable applications, refer to the website or contact your account manager

Specifications:

Form: Cube™ Panel | 100% polyester
Panel sizing: 1200 mm x 2400 mm, 1200 mm x 2700 mm
Thickness: 6 mm, 12 mm & 24 mm
NRC: 0.20-0.70 & higher
Recycled content: Minimum 60%
Fire rating: Group 1-S
Application: Walls & ceilings
Custom panel lengths and prints are available on request.

Sustainability

Sustainability has been a part of who we are and how we operate for decades. From our global operations to how we design and make our products, we have achieved carbon neutrality in everything we do. We also have a robust sustainability strategy to drive change, reduce impacts and show sustainability leadership.

You can be assured that our products are low impact through our verified third-party certifications. Our products support your WELL, LEED®, Green Star, and BREEAM® building certification. Together we can build a more sustainable built environment.

Certifications

Certifying your green building

Autex Acoustics products meet criteria for WELL, LEED, Green Star, and BREEAM building rating systems, helping you achieve certification for your project. For support and guidance on available rating system points please visit www.autexglobal.com, or speak with your Autex Acoustics account manager.

Environmental Product Declaration

An Environmental Product Declaration (EPD) is a document that communicates information about the life-cycle environmental impact of a product, including embodied carbon. Our EPDs are created and verified in accordance with ISO 14025 and EN 15804, used for construction products and services.

GreenRate – Level A

GreenRate is a multi-attribute environmental certification that scores products on a range of environmental, health, and social measures. Autex Acoustics products are certified to achieve GreenRate Level A. Level A is the highest GreenRate level and demonstrates the highest level of product sustainability.

Declare – International Living Future Institute

The ingredients in our products have been reviewed against the Living Future Challenge Red List and achieve a Third-Party Verified 'Red List Free' status.

Products achieve the highest 'LBC Red List Free' status when:

- Ingredients are 100% disclosed and are not found in the Red List
- Products are shown to meet VOC emissions limits

We assure the accuracy of our certifications by having our Declare labels independently verified by a third party expert.

Health Product Declaration

A Health Product Declaration (HPD) is a document that reports the ingredients of a product and the health effects associated with these ingredients. A Health Product Declaration has been generated for each of our products.

CDPH Standard

CDPH Standard Method (CA Section 01350) is a widely used standard to evaluate building products for low volatile organic chemicals (VOC) and formaldehyde emissions. All Autex Acoustics products meet the limits set by CDPH and the LEED building rating scheme.

ISO Certifications

ISO 14001 – Environmental Management

Autex Acoustics manufactures under environmental management processes that are ISO certified. This certification gives assurance that we manage any environmental impacts within our operations.

ISO 9001 – Quality Management

Autex Acoustics has a strict quality management system that is ISO certified. Robust quality processes from raw material through to product release help ensure our products meet expectations.

ISO 45001 – Health and Safety Management

Autex Acoustics manufacturing operations have an ISO 45001 certified Health and Safety Management System to ensure the safety and wellbeing of our people.
